

January 2010
Barracudas Showcase themselves at the FIU Pre – Season team camp. Coral Reef faced three tough opponents in Brito, Mater Academy, and Columbus. Although the team came away with a tie, and two losses, the experience should prove invaluable in assessing the team’s strengths and weaknesses prior to the 2010 season. For the players FIU was a great venue to showcase their talents in front of college recruiters and baseball scouts.
